

Transforming Woodworking Futures! INTRuST conference 2023 at InnoRenew CoE

Take part in the INTRuST conference in the scenic coastal town of Izola, Slovenia! Dive into the heart of the forest-wood value chain and learn about our six cutting-edge online learning modules:

1. **Explore Sustainable Solutions:** Learn how to make a positive impact on the environment while gaining a competitive edge in the industry.

2. **Industry 4.0 Unleashed:** From increased productivity to the integration of advanced technologies like 3D printing and robotics, discover how to propel your business into the future.

3. **Navigate EU Regulations:** Master the EU Green Deal, LULUCF regulations, and the digital transition. Learn to navigate the evolving landscape for a sustainable and digitally enabled future.

4. **Certifications for Success:** From FSC to EPD, understand how certifications in the forestry value chain and woodworking sector can elevate your products and bring value to your business.

5. **Key Enabling Technologies (KET):** Explore implementations of KET in forestry, woodworking, and furniture, and discover how innovation can reshape your operations.

6. **Circular Economy Revolution:** Gain insights into practical methods for integrating circular economy principles and digital solutions into the forest-wood-furniture value chain.

Interactive Digital Guidance:

Experience a demonstration of our state-of-the-art coaching tool providing personalized recommendations for green certificates and standards based on your preferences and interactions.

Networking Extravaganza:

Connect with industry experts, thought leaders, researchers, and fellow participants. Forge collaborations that could shape the future of your business.
